

FACULTY DEVELOPMENT PROGRAM

“AI-Driven Financial Analytics: Sustainability | Risk Assessment | Ethical Considerations”

June 10-14 2025 (Online)

Report: FDP on “AI-Driven Financial Analytics: Sustainability | Risk Assessment | Ethical Considerations”

Date: June 10-14, 2025

Mode: Online

About the FDP

The five-day Faculty Development Programme (FDP) on **“AI-Driven Financial Analytics: Sustainability | Risk Assessment | Ethical Considerations”** was organized to explore the transformative role of Artificial Intelligence in the field of financial analytics. Conducted in hybrid mode, the programme provided a comprehensive overview of how AI technologies are reshaping financial decision-making, risk management, and sustainable investment practices, while also addressing the critical ethical dimensions of such interventions.

The sessions were structured to equip participants with an in-depth understanding of:

- **AI applications in financial data analysis and modeling**
- **Risk assessment techniques using machine learning and predictive analytics**
- **AI's role in promoting sustainability through ESG (Environmental, Social, and Governance) analytics**
- **Ethical and regulatory challenges in AI-driven financial systems**
- **Future trends and innovations at the intersection of AI and finance**

This FDP successfully blended theoretical insights with practical demonstrations, fostering valuable dialogue between academia and industry. It enabled participants to enhance their knowledge, upgrade their pedagogical practices, and critically engage with the evolving landscape of AI in finance.

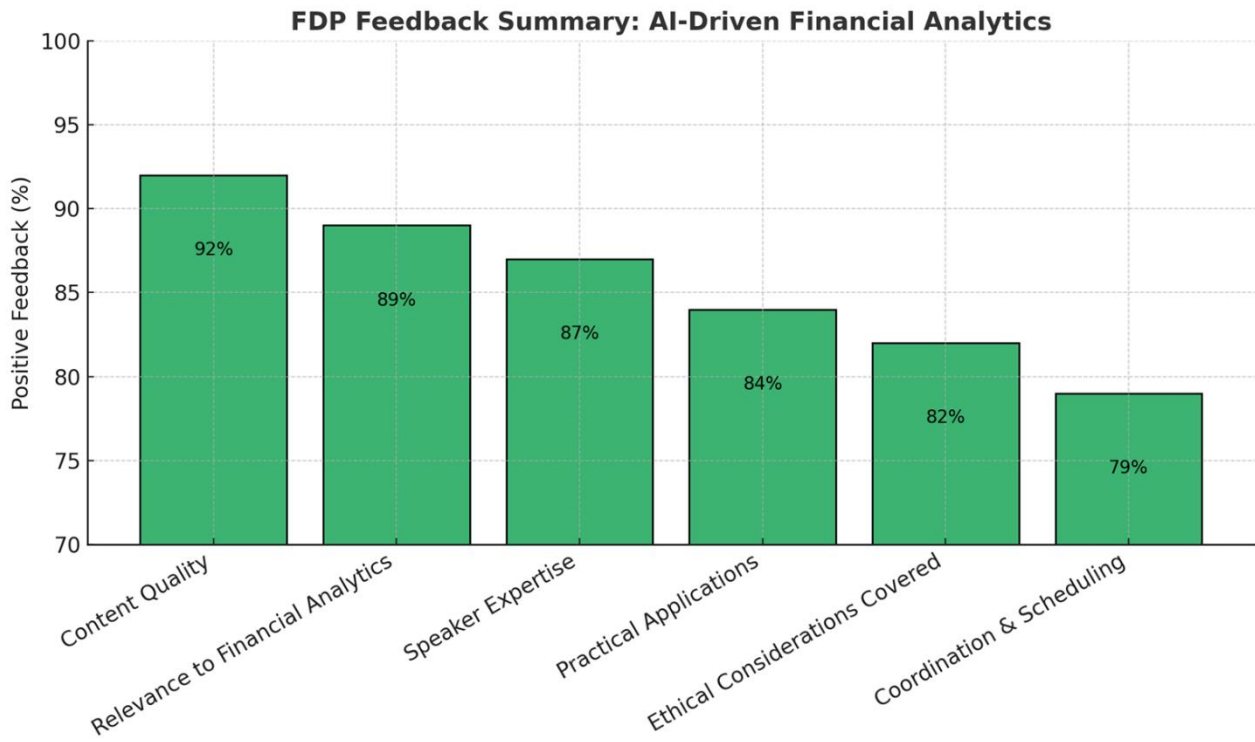

This FDP saw enthusiastic participation from faculty members, corporate professionals, and research scholars from across institutions. In total 78 participants attended the session out of which 76 were external.

The Net revenue generated was Rs. 16,889/-. The expense and income sheet is attached along with the report.

Session-wise Feedback Summary

The five-day FDP received highly positive feedback across all sessions, reflecting both the relevance and impact of the topics covered. Dr. Sonali Yadav’s session on AI-driven hedging strategies was appreciated for its practical orientation and clear explanation of complex financial concepts using AI tools. Dr. Deepti Sharma’s discussion on AI and sustainability sparked meaningful engagement, with participants lauding the real-world applications showcased. Dr. Shahrukh Saleem’s deep dive into ethical AI in sustainable finance was commended for raising critical awareness on responsible technology use. The dual session by Mr. Vatsalya Chaturvedi and Mr. Tarun Ahuja was especially praised for offering a comprehensive, balanced perspective on ESG integration into corporate strategy and governance. Finally, Mr. Ashutosh Kalra’s session on green finance and sustainable banking struck a strong chord with participants, appreciated for its clarity, examples, and policy relevance. Each day was marked by interactive learning and high participant satisfaction, reinforcing the program’s strong academic and professional value.

Overall Feedback Summary

The overall feedback for the speakers of the five-day Faculty Development Programme on “AI-Driven Financial Analytics: Sustainability | Risk Assessment | Ethical Considerations” was overwhelmingly positive.

Dr. Sonali Yadav was highly appreciated for her clear articulation of AI-driven hedging strategies and her ability to connect theoretical models with practical financial risk management. Dr. Deepti Sharma impressed participants with her compelling insights into how AI can drive global sustainability goals, making complex ideas accessible and actionable. Dr. Shahrukh Saleem’s

session stood out for its depth and thoughtful exploration of ethical considerations in AI-powered sustainable finance, sparking critical thinking among attendees. Mr. Vatsalya Chaturvedi received praise for his structured approach to ESG integration into corporate governance and risk frameworks, while Mr. Tarun Ahuja was commended for his strategic perspective on aligning business processes with sustainability goals. Mr. Ashutosh Kalra concluded the program on a high note, earning recognition for his well-researched and practical insights into the future of green finance and sustainable banking. Collectively, the speakers brought a rich blend of academic expertise and industry relevance, greatly enhancing the quality and impact of the FDP.

Key Takeaways

- **High Satisfaction with Content Quality**
Participants reported strong satisfaction with the depth, clarity, and structure of all sessions, appreciating the expert-led delivery and well-researched content.
- **Focus on Practical Applications of AI**
From predictive analytics to ESG integration, the FDP showcased tangible use cases of AI in finance, enabling participants to envision practical classroom and industry applications.
- **Heightened Awareness of Ethical & Sustainable Practices**
The program sparked meaningful dialogue on ethical AI deployment, bias mitigation, and the importance of aligning finance with sustainability and governance goals.
- **Interdisciplinary & Strategic Perspectives**
The FDP bridged finance, technology, ethics, and policy, encouraging holistic thinking among faculty and enabling broader understanding across domains.
