ALUM OF THE MONTH

February, 2024

Ms. Surbhi Rajput

HR Executive.
ISOLS Group

1. Can you please share for which company you are currently working and your designation within the same organization?

I'm currently working in ISOLS Group as HR Executive.

2. How has GIMS played a pivotal role in assisting you in achieving your career goals? Are there any specific experiences or resources from your time at GIMS that you found particularly beneficial?

GIMS provided platforms that boosted my confidence for interviews (thanks to participation!) and mentors who guided me every step of the way. Taking initiative, especially in L&D classes, was a major benefit.

3. Remembering your time at GIMS, were there any specific challenges or areas where you felt there was a lack of opportunities or resources that you believe could be improved for current students?

GIMS could benefit from offering more Learning and Development (L&D) Session starting in the first trimester. These sessions would be instrumental in preparing students for the interview process and equipping them to navigate different corporate cultures.

4. Do you have any suggestions for enhancing our academic curriculum? Specifically, which subjects or areas do you think could significantly benefit the juniors in terms of career advancement and skill enhancement?

"As I got the chance to get interacted with students" changed to "Having had the opportunity to interact with students"

5. What would you like to advise the college to undertake in order to equip the students well for this dynamic professional world?

I would suggest focusing on providing live projects and implementing regular corporate readiness programs. Providing students with platforms to enhance their knowledge and creativity is also very important.

6. We are eager to learn more about your corporate journey. Could you walk us through your professional experiences, from your initial career steps to your current role?

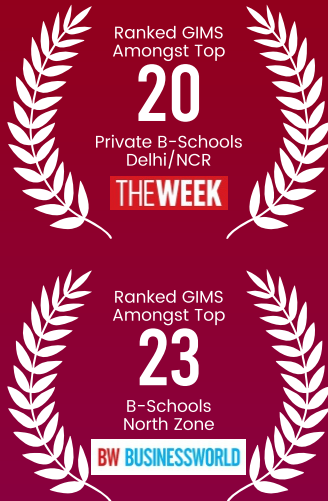

I began my career journey as a Business Development Executive (BDE) at an Edtech company called PlanetSpark. However, from the moment I decided to pursue my PGDM, I had a strong interest in Human Resources (HR). Due to a better opportunity, I initially joined PlanetSpark and it turned out to be a wonderful decision! However, an opportunity to transition into an HR role arose, and I realized that I needed to pursue my passion for HR regardless of the challenges. This realization led me to join ISOLS Group as an HR Executive.

7. As an accomplished professional, what advice would you like to offer to your juniors at GIMS who are embarking on their career journey?

My advice to my juniors will be-

- *Regular participation in every kind of competition.*
- *Work on your domain knowledge*
- *Trust on the system and process*
- *There are no shortcuts, you have to start preparing from the beginning of your journey to get placed and survive in the corporates*
- *Last but not the least, never loose hope and never stop learning.*
