ALUM OF THE MONTH

Ms. Amisha Goyal

Accounts Executive (Alumna Batch 2021-23)
G4S Secure Solution Pvt. Ltd.

1. Can you please share for which company you are currently working and your designation within the same organization?

I'm an Accounts Executive at G4S., India's biggest security service provider.

2. How has GIMS played a pivotal role in assisting you in achieving your career goals? Are there any specific experiences or resources from your time at GIMS that you found particularly beneficial?

GIMS has played a key role in helping me achieve my career goals. The well-rounded curriculum, paired with hands-on learning opportunities, gave me a solid foundation in my field. Notable experiences like industry live projects and internships allowed me to apply theoretical concepts in real-world situations, which significantly boosted both my skills and confidence. Moreover, the mentorship and support from faculty members were invaluable in shaping my professional growth.

3. Remembering your time at GIMS, were there any specific challenges or areas where you felt there was a lack of opportunities or resources that you believe could be improved for current students?

A specific challenge I encountered during my Finance specialization was the requirement to study multiple software tools, such as Microsoft Excel, Financial Modelling, SAS (Statistical Analysis System), Power BI, Risk Management Software (e.g., RiskWatch, Palisade) etc within a limited timeframe. The limited exposure to each software only provided us with a basic understanding, which was insufficient for real-world industry applications. Given the short time frame, it's challenging to master all of them. I believe a more effective approach would be to focus on providing in-depth training in one specific tool. Mastering a single software would better equip students for placements and help them develop a strong, marketable skill set. This focused approach would not only enhance students' confidence but also make them more competent and job-ready in their chosen field.

4. Do you have any suggestions for enhancing our academic curriculum? Specifically, which subjects or areas do you think could significantly benefit the juniors in terms of career advancement and skill enhancement?

Same as above for Finance students, for the rest of them, focus on any one core skill set in order to enhance your capabilities.

5. What would you like to advise the college to undertake in order to equip the students well for this dynamic professional world?

1. Curriculum Update and Industry Relevance
2. Real-World Learning through Case Studies and Live Projects
3. Focus on Soft Skills Development
4. Encourage Entrepreneurial Thinking
5. Global Exposure and Cross-Cultural Learning
6. Networking and Industry Connections
7. Focus on Analytical and Critical Thinking Skills
8. Mentorship and Career Counseling
9. Encourage Emotional Intelligence and Self-Reflection

6. We are eager to learn more about your corporate journey. Could you walk us through your professional experiences, from your initial career steps to your current role?

I joined G4S as a Management Trainee and am currently working in an executive role, overseeing the Order to Cash team.

7. As an accomplished professional, what advice would you like to offer to your juniors at GIMS who are embarking on their career journey?

My advice to juniors on their career journey is to more focus on practical knowledge, develop a strong network by iterating with people of different industry, enhance soft skills because leadership, communication, teamwork, and emotional intelligence are just as important as technical skills. Always curious and keep learning as it helps to stay updated on industry trends, emerging technologies, and new business models. Attend workshops, webinars, and conferences to expand your knowledge. Last but not least master time management as it is key to balancing academics, networking, internships, and personal life
