ABOUT CLUB

Welcome to Arthvitt, the Finance & Economics Club at GIMS! Our club serves as a vibrant platform for students to engage in the dynamic world of finance and economics, where innovation and knowledge converge. Through a series of workshops, seminars, expert sessions, and interactive events, we equip our members with practical insights and analytical tools to stay ahead in an ever-evolving landscape.

At Arthvitt, we believe in fostering an environment that encourages creativity, collaboration, and intellectual growth. Our events are designed to inspire students to explore emerging financial trends, gain exposure to industry leaders, and develop the skills required to thrive in the business world. Whether it's through hands-on learning experiences or discussions on the latest economic developments, we continuously strive to bridge knowledge with practical applications.

Our members are at the heart of every initiative, and their enthusiasm drives our success. As we look forward to more enriching opportunities, we remain committed to empowering students with the resources they need to succeed and make a lasting impact in the fields of finance and economics. Join us as we continue to push boundaries and redefine the future of finance and economics!

Stay connected, stay informed, and let's shape the future together!

Arthvitt - Finance & Economics Club

Swadesh Kr. Singh
CEO-GIMS

The corporate expectations of management graduates have evolved over time due to changing customer needs, business innovations, globalization, and the dynamic landscape of professional operations.

Corporate houses are looking for management graduates who are highly equipped with technology, functional knowledge, and behavioral skills. In order to meet the corporate requirements, it is essential for higher education business schools to train the students in such a way that they meet the corporate requirements closely. Another challenge is ensuring the sustainability of the training impact.

At the GNIOT Institute of Management Studies (GIMS), we have thoughtfully bifurcated the training program. Technical competence and Behavioral Competence. Technical competence includes domain expertise along with IT competence, while behavioral competence includes communication, adaptability, problem-solving, teamwork, time management, corporate etiquette, and a positive attitude. The next challenge was to design a strategy for infusing these skills among the students. We further bifurcated the entire training module into curriculum (credit) and co-curriculum (non-credit) buckets. The technical competencies are largely mapped onto the 114-credit curriculum structure, and the behavioral competencies are mapped onto co-curricular activities. Further, GIMS established a fully functional Learning and Development department with a focus on delivering co-curricular activities pertaining to behavioral competence. The design for honing behavioral competence in each student includes:

100-120 contact hours of delivery for all aspects (LSRW) of communication. The communication modules are delivered by the British School of Language. In addition, the institute has an AICTE-recommended communication lab; students use this lab tool for practicing.

Essentiality of Learning and Development for Management Graduates

40-45 hour delivery on soft skills training through an exclusive soft skills training program called "tutelage.", This program is led by Mr. Sonu Sharma, a leading soft skills trainer in the country.

50-60 hours of delivery on aptitude and logical reasoning. This training is also delivered in close association with the best practitioners in the country.

Apart from training modules, the institute has nearly 80-100 corporate interactions through various programs and talk series. Industry leaders, functional managers, and decision-makers interact on various platforms with the students of GIMS. The first talk series is named Chanakya Talk Series (CTS), which invites industry leaders to interact with the students so that students can gauge the vision of corporate leaders. The second talk series is called Prabodhan Talk Series (PTS). This talk series is aimed at understanding the expectations of functional managers from fresh recruits. The third talk series is named Samarik Talk Series (STS). This talk series invites leaders from defense forces so that students can understand the leadership style of the most efficient organizations.

We at GIMS also make crucial assessments of the training programs, as it is important to understand (a) the effectiveness of the training program and (b) the alteration of the training program as per the needs of the students. We follow the in-house developed indexing mechanism for the students called Employability Skill Indexing (ESI). The students are accessed on various parameters during induction and then divided into different cohorts. These cohorts are delivered with tailor-made modules as described above and accessed once again on the particular skills. The cohorts are re-defined, and next-level tailor-made modules for different groups are delivered. The assessments keep getting more complicated with each level. A GIMS student goes through five assessments and five training modules of different levels during the course. Apart from in-house practices, we also keep on providing exposure via international immersion programs, stride series, live projects, internships, self-directed learning, and industry-driven certificates.

The result of these unique and robust practices reflects the quality of our ever-improving admissions and placement records. We are committed to supporting the dynamic corporate environment by developing the capabilities of youth in alignment with corporate needs. We are also committed to being a front-line contributor to global human excellence.

Dr. Bhupender Kumar Som
Director-GIMS

The Trade War and Its Impact on India

United States has revised its tariffs on import from all across the countries including India. Decades of smooth trade with USA came to a turmoil with this. The Indian goods selling in US market or the US companies getting their products manufactured in India will see reduced margins, poor competitiveness of price in US market. With reduced price difference the customer preferences will change, and it will result in to reduced orders and that will ultimately impact the economy of scale. Small and medium enterprises (SMEs) of India will undergo a significant business hit. As these company have a lot of business coming from overseas market.

There are two ways this trade war should be looked at, one as an independent country USA holds a right to take decision favourable to their homeland. However, as a responsible leader of the world and the largest economy, America shall keep the interest of the world in the centre, while making decisions that will impact global economy. USA is targeting to make more money so pay out its debts and spend more on to their development with free hand. World should realise that in parallel a huge number of immigrants are been sent out by USA, that means further reducing the load on the economy by having less mouths to feed that are contributing negligible to the economic machinery of the country. The other important aspect is, where USA is going to spend the excess of money they would make. They will largely invest in their research and development. Research and development instruments pay back to GDP in largest ratio of investment. Hence, it seems to be a good plan for USA for making their economy stronger in longer run.

The other way to look at this trade war is to balance out Indian market with self-sufficiency. We are a country with resources a good channelisation of resources can reduce the dependency on imports by enlarge. This is the right time to identifying the products for which the imports can be minimised and promoting made in India at a higher pace. Minimizing imports is the best way to keep trade deficit in check. India in itself is a complete market with largest population in the world. Putting technological advancements in priority is another way out of getting least impacted by this trade war, as we are one of the largest importers of technology.

In a nutshell this trade war can prove to be a boon for Indian economy. This trade war came as one of the big learnings for future of business economy. The government shall reduce the interests on loans for higher mobilization of money in the economy as well.

Prof. (Dr.) Deepak Bansal

Professor & Dean – Finance Area
GIMS, Greater Noida

Dear Readers,

It's a pleasure to connect with you through this first edition of the quarterly Finance Newsletter—Arthvit, prepared with great effort and enthusiasm by our talented finance students of GIMS. This initiative is a testament to their dedication to exploring the ever-evolving world of finance and sharing valuable insights with the community.

Finance plays a key role in driving businesses and economies forward. In today's fast-changing world—with advancements in technology, new regulations, and global challenges—it's more important than ever for future leaders to stay informed and adaptable. Sound financial knowledge empowers individuals to make strategic decisions, drive innovation, and contribute meaningfully to economic growth.

This newsletter covers interesting topics like market updates, taxation, sustainable investing, and personal finance tips. These efforts not only help us learn but also encourage the sharing of ideas and knowledge, which is so important in today's interconnected world. I encourage you to actively engage with these insights and use them as stepping stones for deeper exploration and discussions.

As you read through, I urge you to think about how financial knowledge can shape better decisions—whether for your career, business, or personal life. Stay curious, keep learning, and always try to apply what you learn to real-life situations. Remember, the key to success in finance lies in continuous learning and practical application.

Congratulations to the editorial team for putting this wonderful newsletter together. Your hard work and dedication reflect the spirit of excellence that defines GIMS. I look forward to seeing many more such initiatives that showcase the talent and creativity of GIMSians.

Wishing you all the best in your learning journey!

Message from the Faculties of Finance

Our club is dedicated to creating a dynamic platform for learning, growth, and collaboration within the fields of finance and analytics. We continue to foster an environment where students can engage in enriching events, insightful discussions, and hands-on activities that encourage exploration and innovation. Through these initiatives, we aim to equip our members with the knowledge and skills needed to excel in the ever-evolving landscape of finance and analytics. We believe in the power of collaboration and the value it brings in shaping well-rounded professionals. By providing opportunities to network, learn from industry experts, and participate in real-world projects, our club offers a comprehensive experience that extends beyond the classroom. Every event and activity is designed to spark curiosity, ignite passion and empower members to push boundaries in their academic and professional journeys. As we move forward, it is essential that we continue this momentum. Together, we can achieve even greater milestones and contribute to the development of a community that thrives on knowledge-sharing, collaboration, and innovation. We encourage all members to remain engaged and active as we work collectively towards building a brighter future in finance and analytics. Let's continue to inspire, explore, and excel together!

Prof. Satyendra Kr. Srivastav

Dr. Priyank Kulshreshth

Our club is committed to fostering a culture of learning and innovation within the realms of finance and analytics. Through a variety of engaging events, workshops, and thoughtprovoking discussions, we strive to create an environment where students can not only acquire valuable knowledge but also gain practical insights that will shape their future careers. It has been truly inspiring to witness the enthusiasm and active participation from all our members, as it highlights the shared passion we have for these fields. We are dedicated to providing a platform that bridges theoretical concepts with real world applications, empowering students to make informed decisions and excel in their academic and professional pursuits. By offering opportunities for collaboration, skill building, and networking, we ensure that our members are well-equipped to navigate the ever-evolving landscape of finance and analytics. As we continue to grow, it is crucial that we maintain this momentum and continue supporting each other on this journey. Together, we have the potential to achieve new heights and unlock exciting opportunities. Let's keep pushing boundaries, sharing knowledge, and working collaboratively to reach new horizons in finance and analytics. The future is bright, and with our collective effort, there's no limit to what we can accomplish!

Our Mission & Vision

MISSION

Empowering students to master finance and economics through hands-on learning, collaboration, and innovation, preparing them to tackle the challenges of tomorrow's financial world.

Message from the Coordinators of Arthvitt: The Finance & Economics

Dear Readers,

At Arthvitt: The Finance & Economics Club, we strongly believe in the power of creativity, collaboration, and continuous learning. Our mission is to provide a dynamic platform where students can freely express their innovative ideas, engage in intellectual discussions, and enhance their understanding of the ever-evolving world of finance and economics. With the steadfast guidance and support of our esteemed faculty, we strive to foster an environment that nurtures curiosity, critical thinking, and professional growth. Through interactive sessions, expert talks, workshops, and real-world case studies, we equip our members with the knowledge, skills, and resources needed to excel in their careers. Our goal is not just to educate but to inspire future leaders who can drive financial innovation and economic progress. We look forward to empowering our members, creating meaningful learning experiences, and making a lasting impact in the field of finance and economics.

Best regards,

The Student Coordinators, Arthvitt.
GIMS, Greater Noida.

Exploring the Interim Budget 2024: A Deep Dive with Experts

On February 21, 2024, the student coordinators of Arthvitt: The Finance & Economics Club, GIMS, Greater Noida, organized an insightful student panel discussion and an expert session on the "Interim Budget 2024" for the PGDM Batch 2023-25. The panel discussion explored key budgetary aspects, from education to infrastructure, highlighting the budget's implications on various sectors. The expert talk, led by Mr. Rajiv Singh, provided invaluable insights into critical financial elements like capex, fiscal deficit, debt, and revenues. This session offered students a rich understanding of the budget's potential to shape the nation's economic future.

GIMS Finance Conclave

GIMS Finance Conclave for Batch 24-26 on Behavioural Finance and Financial Inclusion

On July 3, 2024, GIMS Greater Noida successfully organized a Finance Conclave centered on the theme "Role of Behavioural Finance in Financial Inclusion" for the PGDM Batch 2024-26. The event was a resounding success, bringing together distinguished panelists from the corporate sector and fostering an engaging platform for discussions on contemporary financial advancements.

Exploring the Role of Technology and Behavioural Insights

The conclave provided an enriching experience for participants, focusing on the intersection of behavioural finance and financial inclusion. Panelists delved into the latest advancements in Artificial Intelligence (AI) and their rapid integration into daily life. They highlighted how these emerging technologies are transforming financial systems, enabling broader economic participation, and addressing challenges in the evolving financial landscape.

The conclave equipped participants with innovative strategies to navigate the challenges of the financial world. It emphasized the critical role of understanding behavioural finance in fostering economic participation and ensuring equitable access to financial resources. The event served as an invaluable platform for students to interact with industry leaders, gain practical insights, and broaden their perspectives on emerging financial trends.

The discussions skillfully highlighted how behavioural insights and innovative technologies are revolutionizing the financial landscape, empowering broader economic participation. It was an inspiring and impactful event.

Ruchi, PGDM Student (24-26)

The session on Behavioral Finance and Financial Inclusion was super engaging and informative. It really opened my eyes to how psychology affects financial decisions and showed some cool ideas for making finance more accessible to everyone. Overall, it was a great learning experience!

Nameera Lari, PGDM Student (24-26)

Technologies like AI, blockchain, and data analytics were highlighted during the forum for their role in transforming financial inclusion. The event provided key insights into future trends and essential skills for navigating the financial world.

Jay Amdavadiya, PGDM Student (24-

GIMS Finance Conclave

GIMS Finance Conclave 2024: Exploring the Role of Behavioural Finance in Financial Inclusion

The Greater Noida Institute of Management Studies (GIMS), Delhi/NCR, announced the Finance Conclave 2024, scheduled for 1st August 2024. This highly anticipated event was held as part of the Induction Programme for the new PGDM Batch 2024-26.

The theme for the conclave is "The Role of Behavioural Finance in Financial Inclusion". The conclave aims to shed light on how understanding human behaviour can revolutionize financial services to become more inclusive, equitable, and effective for diverse populations. We are honoured to host eminent speakers from the corporate world, who shares their wealth of knowledge and insights through an engaging panel discussion. Their experiences and expertise promise to provide a rich learning experience, offering students and attendees valuable perspectives on the intersection of behavioural finance and financial inclusion.

This event was more than just a discussion—it was a platform to inspire innovative solutions for financial challenges, ensuring a more inclusive financial landscape. It is an opportunity for participants to gain deeper insights, network with industry leaders, and take away actionable knowledge.

Esteemed Panellists Include:

- Rashmikanth Chauhan
- Shashank Mishra
- Abhijeet Mehrotra
- Manasvi Garg, CFA
- Priyank Kulshreshtha (Moderator)

Financial Literacy Workshop: “Unlock Financial Confidence”

On September 3, 2024, the Student Coordinators of Arthvitt: The Finance & Economics Club, GIMS, Greater Noida/Delhi-NCR, hosted a Financial Literacy Workshop themed “Unlock Financial Confidence” for the PGDM Batch 2023-25. The event witnessed enthusiastic participation, with students actively engaging in insightful discussions.

The workshop featured distinguished industry leaders, Mr. Harpreet Singh (Founder & CEO, F2 Fintech) and Mr. Abhinav Awal (Co-Founder & MD, F2 Fintech), who brought a wealth of expertise to the session. They shared actionable strategies and in-depth knowledge of the financial world, empowering students to enhance their financial acumen and build confidence in managing finances.

This impactful workshop underscored Arthvitt: The Finance & Economics Club's dedication to equipping future leaders with practical skills and a deeper understanding of the financial landscape.

The Fin Quiz - Face Off: A Battle of Financial Brilliance

On September 21, 2024, Arthvitt: The Finance & Economics Club hosted the much-anticipated “The Fin Quiz - Face Off”—an electrifying event that tested participants’ financial knowledge and creativity. Designed to challenge and inspire, the quiz focused on key topics such as financial accounting, the Union Budget, and banking and finance awareness.

The event unfolded in two exciting rounds. The first round saw classmates competing within their sections, igniting a spirit of friendly rivalry. The winners advanced to the grand finale—a high-energy team quiz where the brightest minds faced off for the ultimate title.

What set this event apart was the energy and enthusiasm of the participants, who showcased incredible ideas and teamwork. The engaging format and intense competition kept everyone on the edge of their seats, making it one of the most entertaining and well-received events at GIMS. “The Fin Quiz - Face Off”

not only celebrated financial expertise but also fostered collaboration and creativity among students.

Expert Talk on 'Impact of AI & Technology on Mergers and Acquisitions Decision Making'

On November 28, 2024, Arthvitt: The Finance & Economics & Economics Club of GIMS, Greater Noida/Delhi-NCR, hosted an insightful session on "Impact of AI & Technology on Mergers and Acquisitions Decision Making" for the PGDM Batch 23-25. The session was led by Ms. Priti Goel, Founder/CEO & MD of Prisha Wealth Management Private Limited and Partner & CEO of Avinav Consulting. She highlighted how AI and technology streamline decision-making and enhance financial data analysis in M&A. Students learned about AI's role in predictive analytics, automation, risk assessment, and strategic applications, emphasizing its transformative impact on corporate growth and innovation. The interactive session inspired critical thinking about AI's integration into business strategies.

Expert Session: Strategic Capital Allocation Mastering the Art of Investment Decisions

On December 11, 2024, Arthvitt – The Finance & Economics Club of GIMS hosted an exclusive expert session on “Strategic Capital Allocation” for the PGDM Batch 2024–26. This session was designed to provide students with a solid foundation in strategic investment practices, with a special focus on capital budgeting—a critical tool for assessing long-term investments and making informed financial decisions.

The session was led by Ms. Neha S. Gupta, Principal Consultant and Trainer at SKS & Associates, who brought her extensive experience and deep insights into the field of finance and investment management. Her guidance offered students practical knowledge and strategies to navigate complex investment decisions with confidence.

This impactful session highlights Arthvitt’s dedication to empowering students with the skills and expertise needed to thrive in the dynamic world of finance and economics.

The session highlighted the importance of aligning investments with organizational goals using frameworks like NPV and IRR. It emphasized balancing short-term needs with long-term growth, risk management, and the role of leadership in governance.

Goshikta Bandari, PGDM Student (24-26)

A key focus of the session was Capital Budgeting, an essential tool for evaluating long-term investment opportunities and making sound financial decisions. The session helped the students understand the quantitative methods used in capital allocation such as Net Present Value (NPV), and Internal Rate of Return (IRR) effectively.

Yash Gupta, PGDM Student (24-26)
