(2×15=30)

6(a) What are the Seven (7) ways of Inventory classification? What is the basis of each classification?

6(b) What will be the total cost to the company per month for Raw Material Z.

Factory need 2000 MT of raw material called Z per month

It has four approved vendors for the raw material Z.

S. no.	Supplier	Raw Material Cost per MT (Rs/MT)	Distance of supplier from factory (Kms)	Transport cost upto factory per truck (Rs)	Carrying capacity of truck (MT)	Maximum available Raw Material with the supplier per month (MT)	Lead time
1	A	60	375	100	10	400	2 days
2	B	100	250	200	10	300	12 days
3	C	50	50	200	20	600	7 days
4	D	70	125	200	20	500	10 days

Each supplier can make extra 100 MT per month if they are paid Rs 10 per MT premium cost (extra cost) of raw material.

It is assumed that company has enough inventory at start of the month.

What will be the total cost to the company per month for Raw Material Z.?
