GNIOT Institute of Management Studies – PGDM (Batch 2021-23)
(TRIMESTER –IV) END TERM EXAMINATION, SEPTEMBER - 2022

Competency Mapping & Assessment

[Time: 2 Hours 30 Minutes]

[Maximum Marks: 100]

INSTRUCTIONS:

- (i) There are **THREE** sections in this question paper.
- (ii) Attempt questions from each section as per the directions.
- (iii) Make suitable assumptions wherever necessary.

SECTION-A

(Short Answer Type Questions, do not exceed 100 words)

Q.1. Attempt all parts of the following:

(10×3=30)

- (a) Does Competency Mapping appropriately measure and monitor risk?
- (b) “Competency and Competence are same.” Comment on the given statement.
- (c) What are the short and long-term Competency Mapping goals?
- (d) Explain in brief, why Competency Mapping is considered to be a very important function of HRM?
- (e) What are the recent trends in Competency Modelling?
- (f) “David is a highly qualified employee. However performance is doesn’t match with his skills and knowledge.” Identify the issue.
- (g) Does Competency Mapping analysis isolate the fundamental causes of problems?
- (h) “Assessment Centres are effective tools for measuring competency of an individual.” Comment.
- (i) Differentiate between 360 Degree and 720 Degree tool of Competency Modelling.
- (j) What are the principal mechanisms likely to bring about performance improvements?

SECTION-B

(Long Answer Type Questions)

Attempt all questions of the following:

(4×10=40)

Q.2. (a) Enumerate the key issues and challenges faced while developing competency models by organizations. Also throw light on guidelines regarding successful implementation of competency models.

OR

(b) Define the term ‘Competency Mapping’. State the steps of competency mapping with suitable examples.

Q.3. (a) “Mismatch between competencies and job role give rise to wastages of time, money and efforts, leading to loss of efficiency”. Justify the statement with the help of example.

OR

(b) Discuss the various methods of Competency Development.

Q.4. (a) “Behavioural, Leadership and Technical Competency are the key elements of an employee’s successes. Give your opinion.

OR

(b) Enumerate the key models of Competency Mapping.

Q.5. (a) “Iceberg Competency Model is an important tool to understand competency modelling”. Comment.

OR

(b) “KIPP Leadership Competency is both empirically derived and research based tool of competency mapping” Explain the statement in brief.

SECTION-C

Q.6. Attempt all parts of the following:

(2×15=30)

Recently I met a General Manager of firm manufacturing precision components for some sensitive machines. There are over a hundred categories of the components to be manufactured in this factory. The General Manager is a Mechanical Engineer by background and had nearly 25 years of experience in that industry. When the new Performance Management System required him to identify his Key Performance Areas (KPA)s he had considerable difficulty and has requested the HR department to help. I was called in to help him and the other top level managers to assist in identifying their KPA)s. As I discussed with this manager it became very clear that year after year he has been doing his job without paying any attention to what he is doing, why he is doing, if the same job can be done by someone else with less cost, and what is a better and cost effective way of doing this job. The GM said that he has been doing a good job all these years without knowing what KPA)s are and he saw no reason to identify KPA)s now when he had been considered as a successful manager. We sat together and started accounting for his time. I requested him to list all the activities he normally does in a month to account for his 200 hour of work in the factory. As we went along he realized that nearly 70% of his time goes into meetings (25% straight away into the daily production planning meetings he has every day in which all his eight DGM)s are present). As we were discussing I realized that while is a great technical person, his communication skills are not up to mark. I asked him that if he had been able to cut down the meeting management time by half an hour a day how much would it save in terms of time to the company. His response was, straight 150 hours at the rate of 300 meetings in a year. I corrected him to say that this is 150 hours of his time but taking into account that another eight DGM)s are involved in his daily meetings it would mean a straight 1200 hours of the time and the company can have an additional DGM for that cost. One can see how much more benefit it will give to the company if this GM’s communication skills are improved. Neither he nor his company realized the importance of meeting management or communication skills or skills associated with team work as essential competencies needed to do the GM or DGM)s job well. They recruited him and continued to have him for his technical competence. Until such time this is realized organization continue to operate with minimal efficiencies and ignorance

6(a) What are the key issues in the given case?

6(b) If you were the HR Manager of the company, what initiatives would be taken by you?
