SECTION-C

Q.6. Attempt all parts of the following:

(2×15=30)

Salesforce – Content Marketing

CRM (Customer Relationship Management) is the noisiest channel on the web, probably in a good way. However, one cannot refute that the competition is rampant. Now, amid this competition, Salesforce has emerged as one of the world's largest vendors of CRM applications. That said, even Salesforce had some issues maintaining steady traffic and customer base to their channel. Salesforce decided to change their content marketing strategy to achieve business growth in search and paid traffic in the UK. Thus, they deployed their content marketing campaign to entertain and engage their target audience in the UK to achieve growth in the region. How did Salesforce go about making their content marketing strategy a success? They leveraged and thrived using these methods and strategies:

- Video on sales and marketing which was highly entertaining and fun.
- World's first stop-motion slide share.
- A presentation to showcase a customer success story.

As a result of this campaign, their website witnessed a dramatic rise in their audience base from the UK region. They enjoyed an 80% increase in web traffic, over 10000 downloads of their customized ebook, approximately 6500 email-newsletter signups and a staggering 2500% rise in traffic from social media sites.

6(a) Justify how initiatives taken by Salesforce lead to a rise in the visitor count?

6(b) Explain the role of Data Analytics in the entire marketing process with appropriate examples.
