

GNIOT Institute of Management Studies – PGDM (Batch 2022-24)**(TRIMESTER –V) END TERM EXAMINATION, JANUARY-2024****Maritime Logistics & Documentation****[Time: 2 Hours 30 Minutes]****[Maximum Marks: 70]****Following are the course outcomes of the subject: - Maritime Logistics & Documentation**

CO	Course Outcome (CO)
CO1	Gain a working knowledge of ship operations, port management, supply services and the chartering process.
CO2	Understand vessel types and design over view including loading and discharge.
CO3	Identify the essential elements of documentation associated with maritime trade.
CO4	Understand the documentation & functioning of export and import management.

(Note- Faculty can add the more CO's as per their subject.)**SECTION-A****Attempt all parts of the following: (Short Answer Type Questions, do not exceed 200 words)**

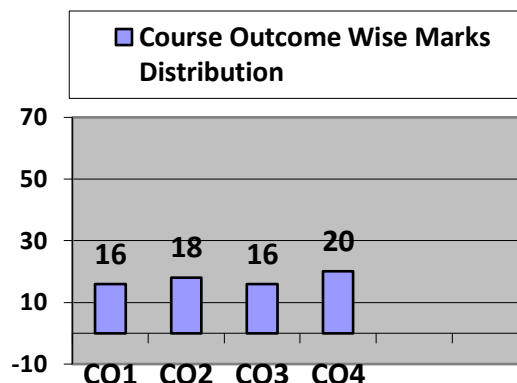

Q.1	Marks	CO
A	4	CO – 1
B	4	CO – 1
C	4	CO – 1
D	4	CO – 1
E	4	CO – 4

SECTION-B**Attempt any 3 questions out of the following: (Long Answer Type Questions)**

Q. No	Marks	CO
2 (A)	8	CO – 4
2 (A)	8	CO – 4
2 (B)	8	CO – 4
2 (B)	8	CO – 4
3 (A)	8	CO – 3
3 (A)	8	CO – 3
3 (B)	8	CO – 3
3 (B)	8	CO – 3

SECTION-C**Attempt all parts of the following: (Caselet / Numerical)**

Question	Marks	CO
4 (A)	9	CO – 2
4 (B)	9	CO – 2

GNIOT Institute of Management Studies – PGDM (Batch 2022-24)

(TRIMESTER – V) END TERM EXAMINATION, JANUARY - 2024

Maritime Logistics & Documentation

[Time: 2 Hours 30 Minutes]

[Maximum Marks: 70]

INSTRUCTIONS:

- (i) There are **THREE** sections in this question paper.
- (ii) Attempt questions from each section as per the directions.
- (iii) Make suitable assumptions wherever necessary.

SECTION-A

(Short Answer Type Questions, do not exceed 200 words)

Q.1. Attempt all parts of the following:

(5×4=20)

- (a) Write short notes on North – South Corridor.
- (b) “Undertake regular voyages” & “Operates depending on requirement”. Identify the ships types and write short notes.
- (c) "It connects the Atlantic Ocean (via the Caribbean Sea) to the Pacific Ocean" Identify the route and write short notes.
- (d) It is an artificial sea level waterway separates the African continent from Asia. Identify the route and write short notes.
- (e) Indian Shipping industry is growing rapidly. Conduct a SWOT Analysis of Indian Shipping Industry.

SECTION-B

(Long Answer Type Questions)

Q.2. Attempt all questions of the following

(4×8=32)

- (a) Export is vital for the country. Do you agree? Support your answer with a valid reason.

OR

- (a) Your friend want to start a export import business. Help him set-up the business. Explain to him all the formalities required to start a export business.

- (b) Bill of Lading is an essential document. Do you agree? Support your answer with a valid reason. Also shed light on content and types of Bill of Lading.

OR

- (b) Bill of exchange ensure the security of financial transaction between parties in export and import business. Do you agree? Support your answer with a valid reason. Also shed light on types of Bill of Exchange.

Q.3. (a) Your friend want to understand the options he has if opts for Marine insurance policy on the basis insured Interest.

OR

- (a) Are all marine insurance policies alike?? Support your answer with a valid reason.

- (b) Shed light on all elements of Marine Insurance Contract.

OR

- (b) If goods are insured under cargo policy, is that the correct option for goods? If yes, explain the coverage of the policy.

SECTION-C

Ninety per cent of the world trade is seaborne i.e. handled by ships. An estimated 50,000 ships carry more than 2500 million tones of cargo in and out of the ports of the world. The main reason for this is that the producing countries are not the major consumers of the commodities they produce. Iron ore is produced by Australia, India, Brazil and Nigeria but the steel and steel products are manufactured by Japan, Korea and the European Countries, Lamb and Beef produced in Australia, New Zealand and Argentina is consumed in Europe and USA. Two thirds of the world shipments of grain cargoes is made by USA through the U.S. Gulf Ports and consumers are developing countries and sometimes even China and Russia. Similarly, oil produced by the OPEC Countries finds its way to countries all over the world.

There are many types of vessels that enables global trade. For example, Until ships started to be built to carry specific and specialized cargoes, all ships were simply general cargo ships, i.e. built to carry all types of cargoes e.g. drums of asphalt or caustic soda, cases of machinery, boxes or cartons containing ebarings or electronic goods, Radios, Transistors, steel plates, paper rolls, cases of Tea, Bags of coffee seeds etc. General cargo ship's holds were further compartmentalised by one or two decks under the main deck so that different types of cargo carried by these ships could be separately stowed. On the other hand, Oil tankers come in two basic types, the crude carrier, which carries crude oil, and the clean products tanker, which carries the refined products, such as petrol, gasoline, aviation fuel, kerosene and paraffin.

Whereas, The Ro-Ro, or more fully the Roll on-roll off vessel, come in a number of shapes and sizes, but generally in two types; the passenger ro-ro and the Cargo ro-ro. Passenger ro-ros have become common sights wherever people want to travel over water with their vehicles. It is probably the only type of cargo vessel that most people have travelled on. Usually a rear door (but sometimes a bow door) allows for vehicles to be driven on and off, stored on the car deck below the passenger accommodation areas. Another type of ships are The LNG carrier (Liquefied Natural Gas) and its cousin the LPG carrier (Liquefied Petroleum Gas), which are products of the late twentieth century.

Q.4. Attempt all parts of the following:

(2×9=18)

- 4(a)** What is the difference between cargoes carried by VLCC and those by Product Carriers? What are the principal advantages of a container ship over general cargo ship?
- 4(b)** What types of cargoes are carried by Ro-Ro ships? Describe the types of Cargoes carried by LPG and LNG ships?
