

GNIOT Institute of Management Studies – PGDM (Batch 2023-25)**(TRIMESTER –II) END TERM EXAMINATION, JANUARY-2024****Operation Management****[Time: 1:30 Hours]****[Maximum Marks: 30]****Following are the course outcomes of the subject: - Operation Management**

CO	Course Outcome (CO)
CO1	Understand the fundamental, practical science of Operations Management
CO2	Examine how these principles operations management can be employed in both tactical and strategic decision making in firms.
CO3	Develop ability to analyze and address problem related to the design, planning, control, and improvements of manufacturing and service operations.
CO4	Understand the basic of Supply Chain Management.

(Note- Faculty can add the more CO's as per their subject.)**SECTION-A****Attempt all parts of the following: (Short Answer Type Questions, do not exceed 200 words)**

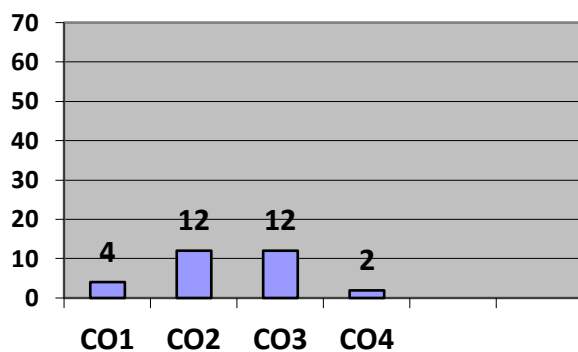

Q.1	Marks	CO
(A)	2	CO – 1
(B)	2	CO – 1
(C)	2	CO – 2
(D)	2	CO – 2
(E)	2	CO – 4

SECTION-B**Attempt all questions out of the following: (Long Answer Type Questions)**

Q. No	Marks	CO
2 (A)	6	CO – 3
2 (A)	6	CO – 3
3 (A)	6	CO – 3
3 (A)	6	CO – 3

SECTION-C**Attempt all parts of the following: (Caselet / Numerical)**

Q.4	Marks	CO
4 (A)	4	CO – 2
4 (B)	4	CO – 2

GNIOT Institute of Management Studies – PGDM (Batch 2023-25)**(TRIMESTER – II) END TERM EXAMINATION, JANUARY - 2024****Operation Management****[Time: 1:30 Hours]****[Maximum Marks: 30]****INSTRUCTIONS:**

- (i) **There are THREE sections in this question paper.**
(ii) **Attempt questions from each section as per the directions.**
(iii) **Make suitable assumptions wherever necessary.**

SECTION-A**(Short Answer Type Questions, do not exceed 200 words)****Q.1. Attempt all parts of the following:****(5×2=10)**

- (a) You have been given a responsibility to design a Mobile phone. What characteristics would you take into consideration while ensuring the right design.
(b) Transformation is enabled by the 5Ps of Operations Management. Do you agree? Give valid reason for your answer.
(c) Consider you are manufacturing 3 different products in very large volumes. Which kind of layout is suitable for this kind of manufacturing. Give answers with valid reasons.
(d) It is important to understand the implication of V's in operation management. Briefly explain what would be the effect of the following:

A: Volume is High

C: Variation in demand is High

B: Variety is High

D: Visibility is High

- (e) The journey of a product is important and supply chain plays a vital role. Do you agree? Give valid reason for your answer.

SECTION-B**(Long Answer Type Questions)****Q.2. Attempt all questions of the following****(2×6=12)**

- (a) As an operation manager you are given the responsibility to finalise the location for your new factory. Explain the steps in making location decisions.

OR

- (a) A company is manufacturing 3 kinds of bedsheets namely A, B & C. Their annual forecasted demand are 5000, 7500, 3200, the labour hour required to produce are 6hrs, 8hrs, 12hrs respectively. The factory is working 8 hours shift for 310 days per year. Calculate the overall and individual utilisation and efficiency of your plants.

Plant	Design Capacity	Effective Capacity	Actual Output
1	1000 / Day	97% of Design Capacity	910/Day
2	750/Day	730/Day	700/Day
3	90155/Year	92% of Design Capacity	219/Day

Q.3:

- (a) To ensure highest quality and optimum cost, it is important that we focus on lean manufacturing. Do you agree? Give valid reasons and also shed light on different types of wastes.

OR

- (a) Consider a product and prepare a BOM for the same. Also shed light on the chronology of APP, MPS & MRP.

SECTION-C

Company Overview:

- **Domino's Pizza:** One of the largest and most recognized pizza delivery brands globally, known for its innovative approach to pizza delivery and customer service. Their Corporate Strategy is to be the leader in pizza delivery and customer satisfaction. Expanding market reach through franchise models, digital innovation, and menu diversification. Leveraging technology for enhanced customer experience and engagement. Focusing on operational excellence to ensure fast and reliable service.

Operational Strategy:

- **Delivery Model:** Traditional phone-based ordering system with standard delivery times.
- **Supply Chain:** Centralized supply chain model with regional dough manufacturing centers.
- **Technology Use:** Minimal use of technology in ordering and delivery tracking.

Need for Alignment:

As the food delivery industry evolved, Domino's recognized the need to align its operations with its corporate strategy, focusing on digital innovation and customer satisfaction. The traditional phone-based ordering system was becoming outdated in an increasingly digital world.

Changes in Operational Strategy:

1. **Digital Ordering Platforms:** Developed a robust online ordering system, including a mobile app, allowing for a more efficient and user-friendly customer experience.
2. **Real-Time Order Tracking:** Implemented GPS tracking for deliveries, providing customers with real-time updates on their orders.
3. **Supply Chain Optimization:** Enhanced the supply chain with technology to improve the efficiency of ingredient delivery to stores, ensuring freshness and reducing waste.
4. **Menu Innovation:** Regularly updated the menu based on customer feedback and trends, ensuring diversity and appealing to a broader customer base.
5. **Marketing Strategy:** Shifted towards digital marketing, utilizing social media and online platforms to engage with customers and promote new offerings.

This change resulted in: **Increased Sales:** The introduction of digital ordering platforms significantly increased sales and market share. **Customer Satisfaction:** Real-time tracking and efficient delivery improved customer satisfaction and loyalty. **Operational Efficiency:** Supply chain optimizations reduced costs and improved service speed. **Brand Image:** Innovations in technology and menu diversity enhanced Domino's brand image as a leader in the pizza delivery industry.

Q.4. Attempt all parts of the following:

(2×4=8)

- 4(a) How did the implementation of digital ordering platforms and real-time order tracking align with Domino's corporate strategy of customer engagement and operational efficiency?
- 4(b) What challenges did Domino's face in implementing these operational changes, and how did they overcome them?
