GNIOT Institute of Management Studies – PGDM (Batch 2023-25)

(TRIMESTER – IV) END TERM EXAMINATION, OCTOBER - 2024

Human Resource Planning

[Time: 2 Hours]

[Maximum Marks: 60]

INSTRUCTIONS:

- (i) There are **THREE** sections in this question paper.
- (ii) Attempt questions from each section as per the directions.
- (iii) Make suitable assumptions wherever necessary.

SECTION-A

(Short Answer Type Questions, do not exceed 200 words)

Q.1. Attempt all parts of the following:

(5×4=20)

- (a) Define how HR planning functions as a strategic process and its importance in aligning with corporate goals.
- (b) Label the key elements of the Strategic HR Planning model and describe their practical application in a real-world organization.
- (c) Describe how employees can be viewed as resources in HR planning and how this perspective contributes to goal attainment.
- (d) Compare the role of HR planning in the strategic planning process in both private and public sector organizations.
- (e) Explain the staffing system within the context of HR planning, focusing on its integration with overall business strategies.

SECTION-B

(Long Answer Type Questions)

Q.2. Attempt all questions of the following

(2X10=20)

- (a) Classify the different techniques of job analysis, such as observation, interviews, and questionnaires, and provide practical examples of where each technique is used effectively in various industries. How do these techniques impact the quality of job data collected?

OR

- (b) Compare the competency-based approach with traditional job analysis methods in terms of their effectiveness for modern organizations. Discuss the advantages and limitations of each method, providing real-world examples from companies that have implemented both approaches.

Q.3. (a) Demonstrate how the job analysis process can be utilized to enhance employee performance, using a case study or example from an organization that improved job clarity and performance outcomes through structured job analysis.

OR

- (b) Outline the steps involved in the job analysis process, including job description and job specification, and critically assess how each step contributes to effective HR planning and talent management within an organization.

SECTION-C

A leading global tech company is expanding into new markets and is focusing on building a strong strategic HR planning (SHRP) framework to align its HR strategy with the company's rapid growth. The organization identified gaps in their talent pool due to the lack of diverse skills and high turnover in key positions. They are using a business process approach to develop strategic staffing plans and perform gap analysis. Additionally, recent trends in SHRP like AI-driven workforce planning and data analytics are being explored to enhance decision-making.

Q.4. Attempt all parts of the following:

(2×10=20)

- 4(a)** Analyze the impact of using a business process approach to SHRP in the tech company. How does this approach help in addressing the skill gap and turnover challenges?
- 4(b)** Evaluate the role of recent trends like AI-driven workforce planning in improving the strategic HR planning process. What are the potential benefits and risks of adopting these technologies in workforce planning?
