(fabricate the necessary details)

SECTION-C

Luxora Appliances, a reputed name in the consumer durables industry with a strong global footprint, has long been known for its innovative and reliable range of home appliances—from smart refrigerators and washing machines to air purifiers and kitchen gadgets. However, the company recently found itself at the center of a major crisis.

The issue began when a whistleblower disclosed alarming internal documentation suggesting that Luxora had been tampering with product testing results to ensure that items passed quality control and hit aggressive delivery deadlines. This manipulation raised serious concerns among various stakeholders, especially consumers who trust Luxora's products for safety, efficiency, and longevity in their homes. As news of the misconduct surfaced, customers started doubting the reliability of their Luxora appliances—

especially those used in sensitive areas such as child care and health-focused kitchen gadgets. The scandal quickly escalated with intense media scrutiny and a flurry of social media backlash, questioning Luxora's commitment to consumer safety and ethical business practices.

Regulatory bodies launched formal investigations into potential consumer rights violations and product safety concerns. The company now faces the possibility of significant penalties, product recalls, and legal repercussions. This regulatory pressure, combined with eroding consumer confidence created a ripple effect in the financial markets. Investors and shareholders voiced apprehensions over the company's long-term profitability and brand equity, leading to fluctuations in stock prices and a cloud of uncertainty. Internally, the workforce started feeling the heat. The employee morale took a nosedive due to the absence of timely and transparent communication from leadership. Rumors and misinformation spread across departments, leaving teams confused and disengaged about the company's direction and stability.

Q.4. Attempt all parts of the following:**(2×5=10)**

- 4(a)** Assuming yourself to be the Chief Corporate Communication of Luxora Appliances, write a public appeal to all the stakeholders assuring them for a quick solution.
- 4 (b)** Reference to the above case, write an email to the chief of quality assurance asking for an explanation for the lapse in the process.
